

AK TouchSecure

A cutting-edge smart door locking solution that gives you peace of mind no matter where you are

COMPLETE CONTROL
FROM ANYWHERE
VIA THE APP

Introducing the **AK Touch Secure™**

The **AK Touch Secure™** from Kenrick gives you a seamless blend of smart technology and high-quality security credentials.

It's perfect for homes and holiday rentals alike because the **AK Touch Secure™** mobile app lets you control the lock from anywhere, putting you in control.

It's the simple, practical solution that gives you all the features you need.

The **AK Touch Secure™** is the smart door locking solution you've been seeking.

Kenrick was founded in 1791 and is based in West Bromwich in the West Midlands.

It is a market leader in window and door hardware design and manufacture. Why? Because it has always focused on continual improvement and innovation that takes high-security hardware forward.

Take a tour of the **AK Touch Secure™**

AK Touch Secure™ works with the Kenrick 3-Star Locking Cylinder. It achieves a TS007 3 star rating, a leading security standard for door cylinders.

The **AK Touch Secure™** app is perfect when you need to monitor or control access when you aren't at the property.

Robust Security

The **AK Touch Secure™** works with any door fitted with a euro cylinder with no need for any major hardware modifications.

It means it can be retro-fitted to your existing door hardware to give you a robust, reliable door security system.

Plus all your data and access methods – including the key fob and the app – are completely secure thanks to end-to-end encryption.

Intelligent Design

The intelligent design for the **AK Touch Secure™** means there's no evidence of the mechanism on the front of your door. It means you upgrade your property's security while still retaining your door's aesthetics.

Multiple Entry Method Options

The **AK Touch Secure™** works using touch-sensitive technology, a secure keypad, a touch-sensitive keypad, an encrypted key fob, a standard door key, or voice commands via Google Home or Alexa. It means you can access your property your way.

Manual Override

The lock can always be opened manually using the key.

Access your property your way!

App-controlled

COMPLETE CONTROL
IN THE PALM OF
YOUR HAND

* Available in 2025

Here's what you can do in the app

- **Operate the door from anywhere** with remote locking and unlocking functionality.
- **See who entered and exited your property and when** with access logs and time stamps.
- **Give temporary, timed access** so visitors, carers or anyone needing approved entry to your property only have access during their scheduled time.

Check the door is **locked** or **unlocked** no matter where you are with the status check feature.

The AK Touch Secure™ Gateway

The sleek and compact **AK Touch Secure™** Gateway is your bridge between your **AK Touch Secure™** lock and the **AK Touch Secure™** app. Link it with your property's WiFi, then enjoy real-time control and total peace of mind no matter where you are.
