

# TouchSecure

Revolutionising  
Door Security  
with Kenricks

 **KENRICK**

# Introducing the **AK Touch Secure™** from Kenricks

The **AK Touch Secure™** from Kenricks is a cutting-edge smart door locking solution. Whether you're a fabricator, installer, or property developer, this state-of-the-art door lock offers a seamless blend of smart technology and high-quality security credentials that delivers peace of mind to your customer.

THE ULTIMATE INNOVATION IN DOOR  
LOCK SECURITY FOR FABRICATORS  
AND INSTALLERS

**AK** Touch Secure

# What makes **AK Touch Secure™** special?

## Manual override

In case of emergency the lock can always be manually overridden with a key and turn facility.

## App-controlled

Manage the lock remotely via the dedicated **AK Touch Secure™** app – check the door status, lock and unlock, all from your smartphone.

- **Versatile and retro-fit capabilities:** **AK Touch Secure™** can be retrofitted to any existing door handle, or fitted as new to the door, provided you fit the Kenrick 3 Star Cylinder.

Suitable for use in residential homes, commercial properties, care facilities, or Airbnbs, the **AK Touch Secure™** delivers a versatile, state-of-the-art locking solution designed to meet the evolving demands of modern door security.

- **Seamless integration:** The lock's internal design leaves no evidence of the mechanism on the front of the door, preserving the aesthetics while upgrading the door's security.
- **Multiple secure entry methods:** Unlock and lock the door with just a touch, a secure key touchpad fitted to the external frame of the door or porch, or via the encrypted key fob feature for quick and secure access without needing your smartphone.
- **Timed and temporary access:** Easily schedule or provide temporary access to visitors, contractors, or staff, ensuring full control over entry.
- **End-to-end encryption:** All access methods – including the key fob – are fully encrypted, ensuring that security is uncompromised.

# Key features of the **AK Touch Secure™**

The **AK Touch Secure™** offers a plethora of features that make it a top choice for door fabricators and installers. Whether you're enhancing security for residential homes, commercial spaces, care facilities or Airbnb projects, the lock brings exceptional functionality and efficiency.

ADVANCED TECHNOLOGY,  
EFFORTLESS FUNCTIONALITY

## Unlock ultimate control with the **AK Touch Secure™ Gateway**

The **AK Touch Secure™** Gateway lets you control your **AK Touch Secure™** lock from anywhere via the internet, offering convenience and security. Experience the future of home access with this essential upgrade that transforms how you manage your property, even when you're away. Compact and sleek, the Gateway connects to your **AK Touch Secure™** lock and links to your local Wi-Fi, acting as a wireless bridge between your door and the internet. Enjoy powerful remote features, real-time control and total peace of mind with the **AK Touch Secure™** Gateway.

## Key features at a glance

- **Retrofit compatibility:** Fits effortlessly to any door handle once the Kenrick 3 Star Cylinder is installed. This includes Lever/Lever, Lever Pad and Pull Bar handles with no need for major hardware modifications.
- **Invisible design:** The intelligent smart mechanism is fitted to the internal handle face, leaving no visible evidence of the lock from the outside of the property.
- **Multiple entry methods:** Users can choose from a variety of access methods, including touch-sensitive technology, a secure keypad, an encrypted key fob, a standard door key, or voice commands via Alexa.
- **App connectivity:** Manage access remotely via the easy-to-use app – perfect for property owners who want to monitor or control access while away from the property.
- **Multi-use applications:** Suitable for a wide range of projects, from residential homes to commercial buildings, care homes, or large residential complexes.
- **Enhanced security:** Integrates seamlessly with the Kenrick 3 Star Cylinder, ensuring a robust, reliable door security system.
- **End-to-end encryption:** Every communication and access method, including the key fob, is protected by encryption, ensuring that your home or building remains secure.
- **Timed and temporary access:** Set up specific schedules for users, giving you full control over who can enter your home and when. For example, if you have a home carer arriving between 10am and 12pm, you can grant them access only during that time window. This feature is also perfect for granting temporary access to guests, especially useful with Airbnbs, without compromising your home's security. With flexible scheduling options, you can easily manage who has access, for how long and during which hours.

# Why **AK Touch Secure™** is ideal for door fabricators

As a door fabricator, you'll understand the importance of blending design with functionality. The **AK Touch Secure™** ensures that the security of the door doesn't interfere with its design. Suitable for use on new doors or retrofitted on existing doors, the **AK Touch Secure™** offers unmatched versatility and ease of installation.

- **Minimal modifications:** **AK Touch Secure™** can be easily installed on existing doors with just the addition of a Kenrick 3 Star Cylinder.
- **Sleek aesthetic:** No visible mechanisms on the front of the door maintaining the integrity of your door hardware design.
- **Multiple entry methods:** Use the touch technology, secure keypad, or encrypted key fob for flexible and secure access.

**A GAMECHANGER IN  
DOOR TECHNOLOGY**

# Installer benefits of **AK Touch Secure™**

Fast, easy installation with maximum security

Installers are always looking for solutions that offer a quick installation process without compromising on quality. The **AK Touch Secure™** is designed to make your job easier, allowing you to offer customers a high-tech door security solution that's simple to fit and highly effective.

**Easy Set-up**

**Wireless**

**Real-time Notifications**

**Live Status**

**Geofencing\***

## Installer benefits

- **Easy retrofit process:** As long as the Kenrick 3 Star Cylinder is installed, the lock can be retrofitted to all door handles in a matter of minutes.
- **Versatile installations:** Works with various door types – residential, commercial, or specialist settings such as residential or care homes.
- **Manual override and encrypted key fob access:** Always have a fallback with manual key override, and offer secure, encrypted access via the key fob, which eliminates the need to rely solely on the app or keypad.
- **Efficient and time-saving:** Spend less time on each installation with the smart lock's intuitive design, allowing you to add value to your projects.
- **Quiet operation:** Minimal noise during product operation.
- **Fast locking:** Locks and unlocks in under 2 seconds.
